### **There's a new way to make strong passwords, and it's way easier**

Requiring longer passwords, known as passphrases, usually 16 to 64 characters long, is increasingly seen as a potential escape route from our painful push toward logins that only a cryptographer could love.

<http://www.stuff.co.nz/technology/digital-living/83161509/Theres-a-new-way-to-make-strong-passwords-and-its-way-easier>

### **9 Essential Google Chrome Extensions You Should Try Once**

One of the defining features of Google Chrome is the add-ons and extensions which let you fine-tune your browser and allows you to add new features. Let's have a look at few such Add-ons which makes the Browsing on Chrome more fun.

### **How to Make eBooks with Google Docs**

Adobe PDF may be the most popular document format on the web but there's a reason why eBook lovers prefer the ePub format over PDF. PDF documents have a static layout with fixed page breaks but the layout of an ePUB document is "responsive" meaning it will automatically adjust for different screen sizes.
